Team Project Setup and Allocation

Prepared for Team Members:

- Abbas Mohamed – Student ID: A00041006
- Keeley Sheridan – Student ID: SHE23598145

1. Team Code of Conduct

This Code of Conduct explains how the team will work together during the project.
The aim is to keep communication clear, divide the workload fairly, and ensure the project progresses smoothly.

Both team members agree to follow these guidelines throughout the coursework.

---

2. Team Responsibilities

Rule	Description
Communication	All messages should be responded to within 24 hours where possible.
Respect	Communication must always remain respectful and professional time.
Deadlines	Tasks should be completed before sprint deadlines.
Collaboration	Important decisions should be discussed together before implementation.
Accountability	Each member is responsible for their assigned tasks otherwise discussed.

Abbas Mohamed – A00041006

Keeley Sheridan – E23598145

3. Workload Allocation

Sprint 1

Task	**Responsible**
Requirements Identification	Abbas
GitHub Repository Setup	Abbas
Architecture Research	Abbas
Abstract Java Implementation	Abbas
Kanban Board Setup	Keeley
User Story Management	Keeley
Code of Conduct Draft	Keeley
UML Component Diagram	Abbas & Keeley
Documentation	Abbas & Keeley

Sprint 2

Task	**Responsible**
Business Concept Model	Abbas
Use Case Diagram	Abbas
Use Case Steps Definition	Abbas
System Interfaces & Operations	Keeley
Business Type Model	Keeley
Initial System Architecture Diagram	Keeley
Business Interfaces & Collaboration Diagrams	Keeley
Clean Architecture Implementation	Abbas
Documentation & Report Writing	Keeley
GitHub Task Tracking	Keeley

Abbas Mohamed – A00041006

Keeley Sheridan – E23598145

Sprint 3

Task	Responsible
Logical Compound Components	Keeley
Architecture Style Selection	Keeley
SOA Principles Implementation	Abbas
Component Implementation	Abbas
Interface Implementation	Abbas
Code Completion & Testing	Abbas
Documentation Updates	Keeley
GitHub Project Updates	Keeley

We both will responsible on reviewing work before submission.

---

4. Weekly Meeting Schedule

To track progress and stay organised, the team will hold **two meetings each week**.

Day	Time	Format	Purpose
Wednesday	6:00 PM – 7:00 PM	Microsoft Teams	Review progress, discuss architecture, assign tasks
Friday	After class (30 mins)	In-person	Quick check-in and review sprint progress

If a member cannot attend, they must notify the other member in advance via What's App message.

Abbas Mohamed – A00041006

Keeley Sheridan – E23598145

5. Meeting Tracker

All meetings will be recorded in a **Meeting Tracker file stored on GitHub** in the `/docs` folder.

Date	Meeting Type	Attendees	Key Discussion	Tasks Assigned
20/02/2026	Whats App	Abbas, keeley	Organising tasks	Sprint 1
25/02/2026	Whats App	Abbas, Keeley	Comp: Indivivual work	Ind tasks
04/03/2026	Whats App	Abbas, Keeley	Component design	Update UML diagram
11/03/2026	Whats App	Abbas, Keeley		

This ensures clear records of teamwork and project decisions takes place.

6. GitHub Conduct

Rule	Description
Branching	All work must be completed in feature branches.
Commits	Commit messages should be clear and meaningful.
Reviews	Work should be reviewed before merging into develop.
Main Branch	No direct commits to the main branch.
Contributions	Both members should contribute regularly.

---

7. Academic Integrity

Rule	Description
Original Work	All submitted work must be original.
Referencing	External sources must be referenced properly.
No Plagiarism	Copying work without citation is not allowed.

---

8. Breach of Conduct

If a problem occurs within the team, the following process will be followed:

Step	Action
Step 1	Discuss the issue privately between team members.
Step 2	Agree on a solution or adjustment.
Step 3	Record the outcome in the meeting tracker.
Step 4	If unresolved, escalate to the module lecturer.

---

9. Agreement

By signing below, both team members agree to follow the Code of Conduct and responsibilities outlined above.

Name	Signature
Abbas Mohamed	A. Mohamed
Keeley Sheridan	Keeley Sheridan
